Delivery – General

All the relevant information regarding delivery can be found in the commissioning agreement/broadcast licence. Please refer to the specific agreement to confirm the specific requirements for a programme or series. This document offers some background information and further guidance regarding the main elements and explains the importance of complying with delivery dates and the delivery requirements.

S4C's Brand Guidelines provide further information on the programme's visual requirements and promotional material such as pictures and clips.

1. Delivery of Programmes (on tape and live)

Technical Standard

In order to ensure that you comply with S4C's technical requirements when delivering a programme please refer to the document 'Technical Requirements for Commissioned Programmes supplied to S4C' ('S4C's Technical Requirements'), an up-to-date version of which is available from the Production Website.

[http://www.s4c.cymru/media/media_assets/Technical Standards for Delivery of Television Programmes to S4C.pdf](http://www.s4c.cymru/media/media_assets/Technical_Standards_for_Delivery_of_Television_Programmes_to_S4C.pdf)

Delivery Dates

The tape delivery date will be noted in the agreement. All programmes are expected to arrive before or on the 'Delivery Date' and by the time noted in the agreement if applicable.

The delivery date noted in the agreement has been set to ensure sufficient time to make the necessary arrangements to schedule, promote and broadcast the programme in the most efficient way. Failure to deliver by the expected date means having to change arrangements that have already been made which in turn leads to the inefficient use of staff time and resources.

All requests for a delivery date to be changed should be sent by e-mail to Rachel Evans in the planning department (rachel.evans@s4c.cymru) and also copied to the relevant commissioner. Rachel or a member of her team will then respond by e-mail to confirm whether or not the delivery date can be changed. This will ensure that all parties are working to the same delivery dates.

Accuracy and Correctness

Having to send tapes back creates difficulties and is an administrative burden for the Production Company and S4C. A programme should arrive ready for broadcast without the need send it back to the company to correct spelling mistakes for example or to reset headings or make changes due to rights not being cleared. A record is kept of all instances of tapes being returned and included in a monthly report for the Director of Content and Transmission.

2. Delivery of Programme Information

S4C's PAC system

As part of the delivery materials, companies are required to provide the programme information via the S4C PAC system. The system and the relevant forms can be found by following this link - <http://pac.s4c.cymru>. Please contact the Business Affairs Department in the first place to gain access to the system. A help facility is available within the system itself, but if you require further assistance please don't hesitate to contact us. Names and contact numbers are noted at the end of this document.

3. Information required before or with tape delivery.

Form 405 should accompany the tape or submitted prior to programme transmission if the programme is broadcast live or is to be webcast before tx(405a). The delivery date will be noted in the agreement.

This form provides essential information required by a number of S4C departments to enable them to comply with their various statutory obligations.

In addition to providing the basic programme information (number, title, tape format etc.) the information on form 405 is of assistance to S4C in the following areas:

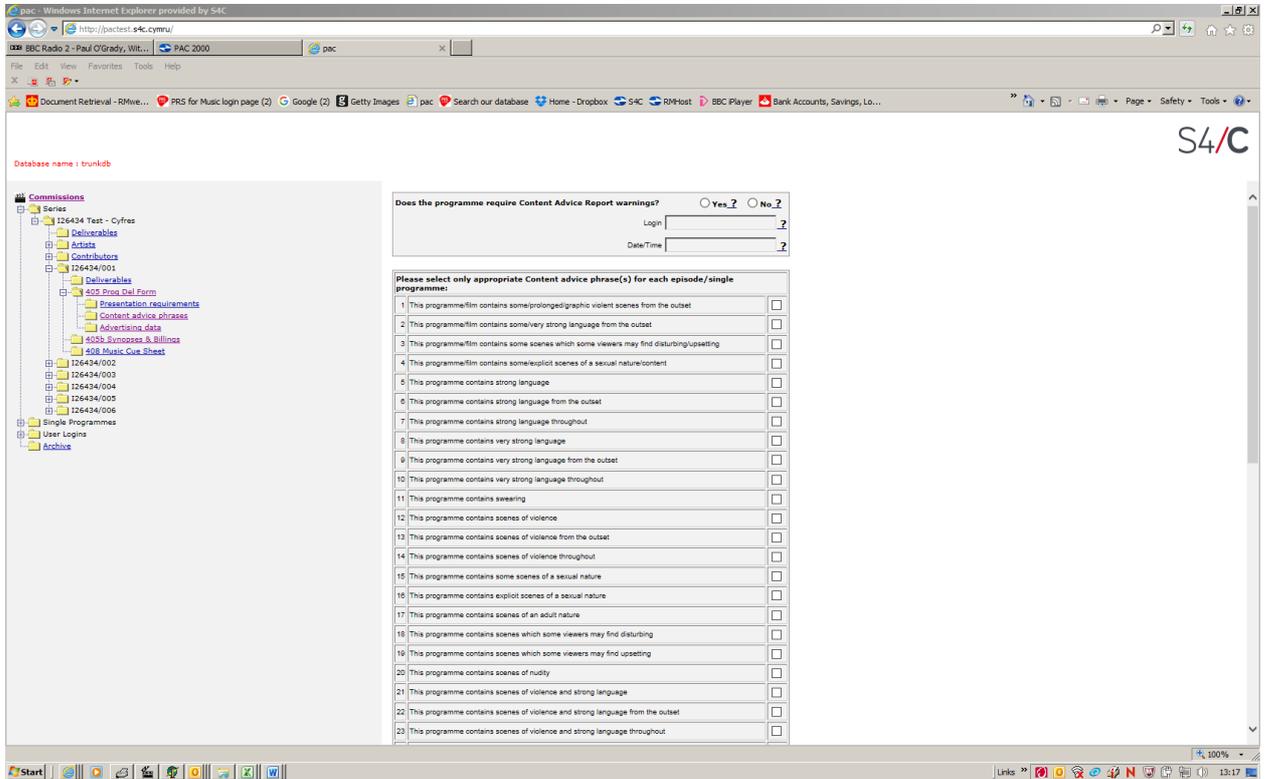

- **Contributors, Artists, Advertising Information:**
The artist and contributor information for a programme enables S4C to ensure that they are not taking part in any other adverts around the time of the programme as this is contrary to guidelines.

- **Summaries and Listings 405b:**
The programme summary (100 words) and the bilingual listing (2-3 sentences) are used for promotional and marketing purposes. You are welcome to draw attention to any 'highlights' that can be included in the short summary on the EPG.

- Details of any 'strong' or 'unexpected' content within the programme which means that an announcement at the beginning of the programme might be appropriate. This information is automatically uploaded to our website and the iPlayer.

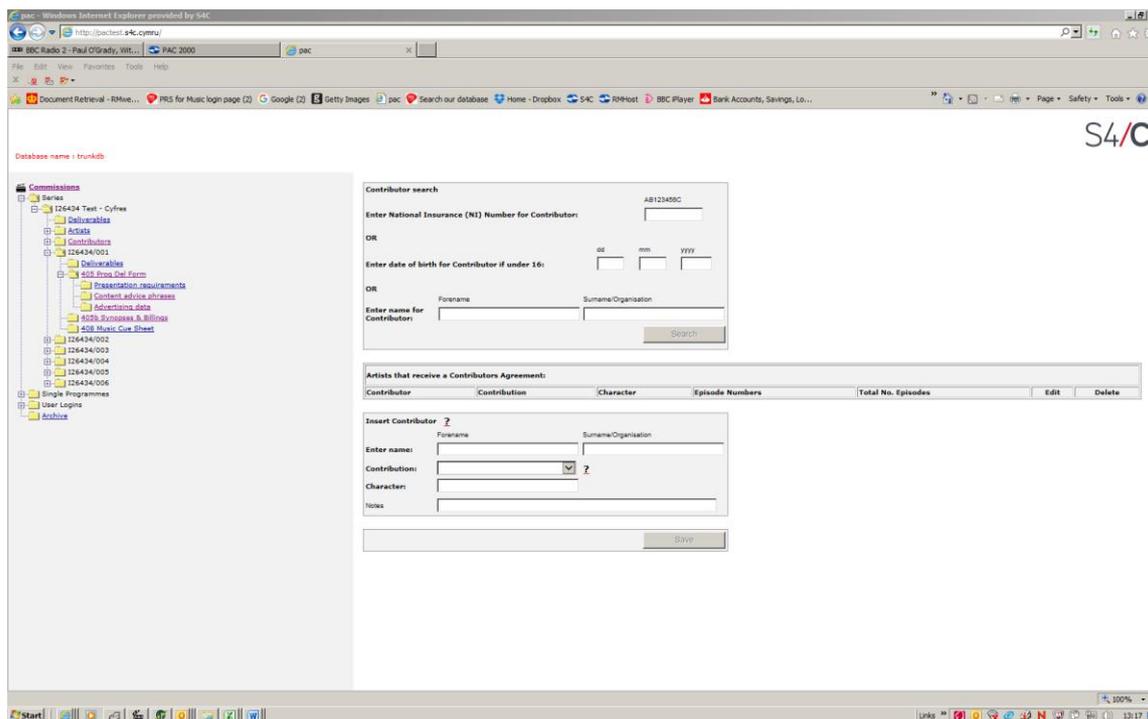

4. Programme information to be delivered soon after the tape.

To enable S4C to make the relevant payments for programme repeats etc. more detailed information is required once the tape is delivered. The delivery date for this information will also be noted in in the agreement.

The delivery information required through the PAC system is

Contributor Information

Any contributor to the programme should be noted in this section. This information is kept on S4C's BSM system and provides valuable data regarding programme content and contributors over the years.

The only information that should not be included in this section is details of anyone with a contract stating that further fees are payable if the programme is repeated. The individual's details in this case should be included on the Artist's form(see below).

Artists' Details

The screenshot shows a web browser window displaying the S4/C database interface. The browser's address bar shows the URL <http://pac-test1.s4c.cymru/>. S4C will use this information to re-licence the material for repeats once the original licence period with the copyright owner has expired.

It's not possible as yet to complete this form on the PAC system. A copy can be found in Word format on the S4C production website in the 'Forms' section. Please send the completed form to the following email address pac_b@s4c.cymru.

6. Late Delivery

The General Terms of the licence agreement sets out the steps S4C can take if a programme is delivered late. This includes the right to:-

- claim any costs that arise when a programme has to be returned to the company if the delivery material does not comply with S4C's requirements.
- deduct any reasonable costs from monies owed to the company or invoice the company for any costs arising from late or non delivery of paperwork.
